## Skills

- Willing to learn
- Positive attitude
- Composure
- Kind demeanor
- Problem-solving
- Programming
- Spreadsheet skills
- Computer networking
- Managing Windows Server
- Managing Firewall
- Managing Google and Microsoft Admin Console

## Skills as a Web Developer

- Knowledgeable and skilled in
  - ReactJS
  - TailwindCSS
  - Styled Components
  - CSS3
  - SCSS
  - JavaScript
    - Working with [API](#) using Fetch
    - Promises
    - Async/Await
  - NodeJS
  - PostgreSQL

- Sequelize ORM
    - **CRUD** operations
  - MongoDB
  - Mongoose ODM
    - **CRUD** operations
  - Express JS
    - **RESTful API**
  - EJS (Embedded JavaScript Templating)
  - HTML5
  - GSAP3
  - Photoshop
  - Figma
  - Git processes
- 
- **Creating responsive websites** for various devices, from desktops to tablets and mobile phones.
  - Coding with a mobile-first workflow, this approach ensures that the website is optimized for mobile devices
  - Designing websites and keeping an eye on the latest trends in web development.

## Personal projects:

### 1. **Yelp Camp**

A full-stack website project. The website has a login system. The user can create an account and post a campground and can submit reviews. This web app uses PassportJS to handle user authentication.

This website uses: HTML5, CSS3, Bootstrap 5, JavaScript, NodeJS, MongoDB, Mongoose, ExpressJS, and EJS.

### 2. **Backup Tools:** <https://backuptools.netlify.app>

This is a website for a tool that solves the issue of copying and deleting files and folders with excessively long names on Windows OS. This is created using a batch script that runs on Powershell and any Windows OS with a command

prompt.

It can also copy and move from different locations on your PC.

This website uses: HTML5, SCSS,JS and GSAP3 for animations.

3. **Inspirify:** <https://inspirify.netlify.app>

This inspirational quote website can generate a wide variety of inspiring quotes from famous figures throughout history using [API](#).

4. **Web sites or landing pages :**

Fully responsive landing pages, from 320px mobile up to the largest possible display. Challenges from [frontendmentor.io](https://frontendmentor.io).

- **Advance Multi-step form:**  
<https://a14313.github.io/multiStep-form/dist/>
- **Sunnyside landing page:**  
<https://a14313.github.io/sunnyside-landing/dist/>
- **Snap landing page:**  
<https://a14313.github.io/intro-section/dist/>
- **Fully responsive Accordion card:**  
<https://a14313.github.io/faq-FEM/dist/>

---

## Experience

---

### **JourneyTech Inc** / Full Stack Web Developer

July 2023 - Present, Paranaque City

Developed fully responsive web applications using ReactJS, ExpressJS, and NodeJS optimizing user interfaces for a seamless experience.

#### **Current project as a team lead: Attendance monitoring system / Gate access system**

A seamless solution designed to simplify attendance tracking. Empowering organization with real-time attendance updates, user-friendly interfaces, fully responsive web app and mobile accessibility.

Used tech stack for this project:

Web: ReactJS, ExpressJS, PostgreSQL, NodeJS

Mobile app (for reading the RFID): Java

- Led a cross-functional team of professionals in the successful development and implementation of an innovative attendance monitoring app.
- Designed and implemented a [RESTful API](#) for attendance monitoring system, adhering to best practices and standards, ensuring scalability, security, and ease of integration for clients.
- Conducted code reviews and mentored junior and intern developers to foster best practices and knowledge sharing.
- Collaborated with cross-functional teams to translate project requirements into efficient and elegant code.
- Utilized modern front end and back end tools and libraries to enhance development workflows and maintain code quality.
- Participated in Agile development methodologies, including daily stand-ups and sprint planning.
- Utilized component-based architecture to create reusable UI components, reducing development time.
- Conducted testing to optimize user interfaces, resulting in improvement.
- Kept up-to-date with the latest [ReactJS](#), [NodeJS](#), [ExpressJS](#) trends and best practices, incorporating them into ongoing projects.

---

## **Upwork** / Freelance Web Developer

**June 2023 - Present**, Pasay City

My primary expertise lies in web development, specifically in creating interactive and visually appealing websites. I specialize in web development and creating professional and engaging websites. I have experience in crafting visually appealing designs and implementing functional features to enhance user experience.

### **Sample project for client:**

- <https://gold-red.vercel.app/>

## **St. Mary's Academy / IT Staff**

June 2016 - May 2023 (**7 years**), Pasay City

I worked as an IT Staff at St. Mary's Academy in Pasay City. In this position, I am responsible for:

- **Maintaining the Firewall (WatchGuard and Sophos).**

I am making sure that the rules and configurations are regularly updated to protect against the latest threats and vulnerabilities. This includes deploying security patches, updating firewall rules and making sure that the firewall is properly configured.

- **Maintaining the overall network inside the campus as a network administrator.**

I am responsible for managing the network. It involves monitoring, administration, and maintenance of computer networks. It also includes maintaining network infrastructure such as routers, switches, and firewall.

- **Maintaining the Anti-Virus Server (Symantec).**

As part of my role, I am responsible for managing the anti-virus software for the organization. This includes ensuring the anti-virus software and anti-virus definitions are up to date, and configured correctly, as well as monitoring for any malicious activity on the network.

- **Maintaining the Windows Server Active Directory.**

I work with other IT staff to ensure that the servers are running efficiently. We also create and enforce policies and procedures in Windows Server. This includes setting up, configuring, and troubleshooting servers and related applications, installing and updating software, maintaining security protocols, and providing technical support to users.

- **Managing Google Admin Console for Creating accounts of all students and employees.**

I am responsible for managing the Google Admin Console, which is used to create accounts for students and employees. This involves creating new accounts, managing settings, and ensuring that everyone has

access to the tools they need. I am also responsible for troubleshooting any issues that arise with accounts, such as resetting passwords and unlocking accounts.

- **Managing Microsoft Admin Console.**

I am also responsible for managing Microsoft Admin Console, just like Google Admin.

- **Maintaining and supervising the computers' operating systems.**

I am responsible for managing, maintaining, and supervising the computers' operating systems in our organization. This includes the installation of operating systems, software applications, and related hardware components to ensure proper functioning.

- **Performing regular updating of Windows OS, Anti-Virus definitions, and server updates.**

I also ensure that all computer system updates, including security patches, are regularly applied. I often troubleshoot system issues and provide technical support to end users

I also document system processes and provide recommendations for process improvements

Other skills:

- I used to be part of the team in editing some parts of the school website.
- Google Spreadsheets automation, formulas, and analyzing data.

---

## Education

---

Asian Institute of Computer Studies / (2 yr) Associate Computer Science

Jun 2012 - Mar 2013 | Jun 2013 - Oct 2013 | Oct 2015 - Mar 2016, Marilao Bulacan

- Completed Computer Science focusing on Java, Web Development, Database, Networking, Cisco Networking
- Completed Training in Cisco Networking, Solaris OS, Java Programming, and Oracle 9/10 Database Administration

Dalandanan National High School / Secondary

Jun 2008 - Mar 2012, Valenzuela City

**Andres Fernando Elementary School / Primary**

Jun 2002 - Mar 2008, Valenzuela City
